

OK2SAY

Do you really want to make a difference?

This new program enables students and others to confidentially report potential harm or criminal activities. OK2SAY's focus is on early intervention and prevention, acting as an early warning system to thwart school tragedies BEFORE they occur.

Students (and others) can submit tips 24/7 by telephone, text, email, mobile app, and via a web-based form on the OK2SAY website at www.mi.gov/ok2say.

If somebody is doing something illegal, they need to be stopped. They are hurting themselves and others. Laws and rules are designed to keep us all safe. Do the RIGHT THING.

You may save a life.
